

Fishermen's Fall Festival 2016

Educational Booth Information & Requirements

FFF Information and Requirements for Education Booths at Fishermen's Fall Festival

All educational booth requests must be submitted no later than August 15, 2016 to be considered.

Fishermen's Fall Festival Mission Statement

The festival purpose is to provide a free community event with a focus on family fun bringing awareness to Fishermen's Terminal and its retail businesses, promote the commercial seafood industry and the North Pacific Fishing Fleet and bring awareness to the positive economic impact the commercial seafood industry and Fishermen's Terminal provides to the local economy. Also to spotlight and benefit the Seattle Fishermen's Memorial (SFM) and the services it provides to the commercial seafood industry including but not limited to safety and bereavement issues with all proceeds going to SFM. The festival is a non-profit fund-raising event funded through donations from the commercial seafood industry, Port of Seattle, Fishermen's Terminal tenants and various local businesses. The festival is organized by the Fishermen's Terminal Retail Tenant Association (FTRTA). The festival is run on an all-volunteer basis with volunteers from the commercial seafood industry, various related businesses and the public.

To maintain the festival's integrity and fun free family neighborhood event we:

- Require an 11am to 6 pm presence with the booth being "staffed" at all times.
- Some sort of activity to engage the attendees and especially children. An educational activity relating to the commercial seafood/fishing industry is preferred.
- New booths/activities require a proposed written notice of activity to FFF committee; this should be submitted via an email to the educational booth chairperson listed below.
- We do provide the cost of the booth and a platform to get exposure.
- We encourage you to help support our benefit by purchasing a BBQ meal or t-shirt. But since this is a fundraiser, we will not provide these to your educational booth participants.
- Any banners are limited to inside of your tent.
- Prior Approval by the FFF committee is required at least two-weeks in advance of the festival for all educational booths
- No selling of any kind is allowed in educational booths.
- Give-aways are allowed and encouraged
- Sponsors do not automatically receive an educational booth but must request in advance pending FFF committee approval.

Parking

When arriving, you are welcome to unload items from an area close to your booth. After which we ask you look for volunteer parking across the street from the terminal in the BNSF lot. If this is full, there is also parking to be had driving past the Terminal on Emerson, taking the next right on 21st along that street. If none there, look for any 8 hour parking anywhere. We want to allow as much parking as possible in the terminal for guests.
